SW4

Type

Steering wheels

Description

Key features

SW4 is one of the most versatile steering wheels in the market, compatible with a long list of ECU protocols, to meet any driver's need. Four sizes: SW4 270, SW4 280, SW4 320 and SW4 350, compatible with more than 2,000 ECU protocols, TFT display with freely configurable pages, individually configurable pushbuttons, rotary switches, one by one configurable LEDs, GPS09 Module (optional), clutch and paddle shifts (optional), ergonomic & replaceable handle grips, easy configuration & analysis with Race Studio 3.

User manual & Race Studio 3 software freely downloadable from AiM web site.
